I am totally good with this.

We need to keep making sure this does not impact the Operations viewer. I will work with Eric but OPS is still the priority.

Janine, you are really the greatest. My respect for you has deepened and I would not have thought that possible.

M

See the Edits below from our initial deployment and management Email. With this Viewer Officially Live, it is extremely important we follow this as to not disrupt the application.

One OSC (Lead Viewer OSC – Currently Eric) should communicate to One START (Lead Technical Manager – Janine (Brad while out of pocket) – That START will work with the Team to get things in the QA Viewer for testing and approval.

Update Process for the Viewer Application:

1. OSC requests update to Technical Lead
2. Technical Lead Contacts team
3. Changes pushed to QA Viewer
4. QA Viewer is tested
5. QA Version is pushed to the Production
 - a. Ideally if not a true emergence – we would like to do this at the end of the night when we've made and QA'd additional changes, then we can deploy and move to the production url. We understand that if something needs to happen ASAP we will make that happen.

Update Process for the Main SQL View Feeding the Viewer and RM Analytical Page:

1. OSC requests update to Technical Lead
2. Technical Lead contacts team and Joe/ERT
3. Changes pushed to QA View and testing in QA Viewer

4. QA Tested
5. QA View and Viewer pushed to Production

Here are the links to the public Viewer production and QA:

<https://gis.eparm.net/GoldKingMine/>

<http://www2.epa.gov/goldkingmine/data-gold-king-mine-response>

https://gis.eparm.net/GoldKingMine_QA/

There are 2 Services - One on Region 136 and one on Region 8

1. https://www.eparm.net/eparmgis/rest/services/GoldKingPublic/GKR_AllSamples3/MapServer - Janine and Raj
 - a. MXD Location - \\10.11.26.13\r6\START\ER\GoldKing\mxds\public\GKR_AllSamples.mxd
2. https://r8.ercloud.org/epar8gis/rest/services/GoldKing/GoldKing_Operations_Public/MapServer - Managed By John Lucotch

Roles and Responsibilities are below.

Janine (Brad while out of pocket) – Technical Manager

Long – Lead JS API developer.

Kris - Lead Web Administrator. Lead Developer of RM Analytical Pages

John – Lead R8 Service Administrator

Janine (Raj while out of pocket)– Lead R6 Service Administrator

Mel – Lead DBA of Samples View

Lastly all of this will go into the DMP I just wanted to get everyone on the same page quickly as I try to be out of pocker for a couple of hours.

Let me know if you have any questions.

Janine Polinko Latham
